PRESIDENT'S REPORT

As we begin a new year, I wanted to take a moment to reflect on the accomplishments and challenges we have faced as a community. The Warwick Valley Chamber of Commerce has continued to thrive and support our local businesses, even in the face of unprecedented circumstances. Together, we have proven that resilience and collaboration are the keys to success. 2023 has been a year of growth and innovation for our chamber. We have welcomed numerous new businesses to our community, strengthening our local economy and expanding our offerings to residents and visitors alike. From charming boutiques to unique dining experiences, our members have truly made Warwick Valley a destination of choice.

One of the highlights of this year was the successful implementation of our Shop Local campaign. With the support of our members and the community, we have encouraged residents to prioritize local businesses and keep our dollars circulating within our community. This initiative has not only boosted our local economy but also fostered a sense of unity and pride among our members. In addition to promoting local businesses, we have also focused on providing valuable resources and networking opportunities to our members. Our monthly networking events and educational workshops have allowed entrepreneurs and professionals to connect, learn from each other, and grow their businesses. We are proud to be a platform that facilitates collaboration and fosters the spirit of entrepreneurship.

As we look ahead to 2024, we have exciting plans in store. Our chamber will continue to advocate for the needs of our business community, working closely with local government and organizations to create a supportive environment for growth. We will also explore new ways to promote tourism and attract visitors to our beautiful valley. I would like to express my deepest gratitude to our dedicated board members, committee chairs, and volunteers who have contributed their time and expertise to the chamber's success. Your commitment and passion have been instrumental in driving our initiatives forward.

Lastly, I want to thank each and every one of our members for your continued support and involvement. Your participation in chamber events, committees, and programs is what makes our organization strong and vibrant. Together, we will continue to build a thriving business community in Warwick Valley. Please follow us and our events on our social media platforms and our website.

NETWORKING TIDBITS

By Janine Dethmers, Programs Committee Chair

Today I introduced myself to two new ladies at the gym. They happen to be sisters who look alike and want to train together. I tried really hard to recall their names, I asked them twice (in the beginning & end of our conversation). I even initiated firm handshakes at the start to validate their names, but I cannot seem to remember them! What did I do wrong?

Endless techniques for remembering names most certainly come into play. Here are a few reminders: 1) Practice Active Listening - listen carefully, it's easy to let the name slip past you if you're focused on what you're going to say next. 2) Repeat It - repetition plants the name in your brain, saying it out loud will help you to remember it. 3) Make An Association of The Name in Your Mind - for instance, if you meet someone named Lily, you might imagine a lily flower. Or associate the name with a facial feature, for example, Brian with the bushy eyebrows.

(Update: I later guessed that one sister's name is Linda! Here's how I can remember - 'Linda has lengthy eyelashes' and I will work on the other one today).

The Programs Committee is proud to keep our members 'exercising' the practice of social networking in person by presenting a variety of events and seminars in unique settings.

Thanking Our Recent Hosts: Stagecoach Inn in December, Cork Wine Bar and Hudson Valley Wellness both in January. Thanking our gracious hosts for ensuring our Chamber members and friends had the best of times!

Upcoming Events:

- After-Hours Mixer at Greenview Tavern 3/6
- After-Hours Mixer at Meadow Blues Coffee on 4/9
- Expresso Mixer at The Book Nook on 4/24,
- Expresso Mixer at Warwick Town Police on 5/14
- Expresso Mixer at McManus & McManus, LLP on 6/5
- After-Hours Mixer at Last Whisky Bar on 6/20

Remember, guests and non-Chamber members are always welcome to join in for any and all of our events, so be sure to spread the word and invite others to join us.

If you are interested in hosting a Chamber event or would like to pitch an idea, contact Programs Committee Chair Janine Dethmers at Corporate Impressions via jsdethmers@gmail.com or 845-988-7193.

We were excited to start the Spring with an After-Hours Mixer at **CRAFT BEER CELLAR** in downtown Warwick. Guests enjoyed their great selection of local craft beer, wine, cider, and cocktails and were wowed by the elegant charcuterie on a beautifully-handcrafted board.

May took us to **COQUITO** in Warwick for another After Hours Mixer. A lively crowd enjoyed their beautiful interior and bar while networking and exploring their South American cuisine and tasty cocktails.

Our final After Hours Mixer of the 2nd quarter took us to **LAST WHISKY BAR** in Wickham Woodlands where we enjoyed one-of-a-kind craft cocktails and a delicious variety of snacks. Plus we were able to enjoy live music on their outdoor stage.

We also enjoyed two Express Mixers in the 2nd quarter starting in May at the **TOWN OF WARWICK POLICE DEPARTMENT**. Guests enjoyed coffee, breakfast treats, and tours of their facility. Thanks to all of the officers who spent some time with us and for their service to the community.

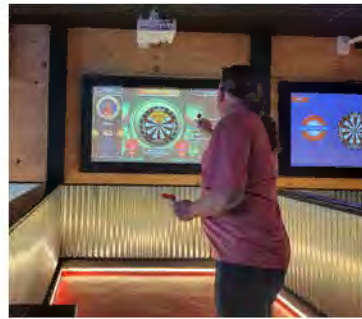

In June we enjoyed coffee and treats at **ETCHED IN TIME** where we perused their lovely gift shop and watched their etching machine create lovely wooden ornaments for everyone to take. Thanks to Nicole for donating a gift for a surprise drawing for the folks in attendance.

We also had two additional events that were both new for us. First, Remi Leibovic of **RCL MEDIA** conducted a Social Media Workshop at **DUBCO Acres**. Attendees learned a great deal that they were able to apply to improve their social media presence.

Thanks to Pete Artusa of **PINE ISLAND TAP HOUSE** for suggesting and hosting a Speed Networking event in May. The format allowed folks to meet and have short but meaningful conversations with everyone in attendance while enjoying delicious craft beer and tasty treats.

If you're interested in hosting a mixer or have an idea for another type of event, please let us know by emailing info@warwickcc.org.

USE LOCAL COUNSEL

Here in the Warwick Valley residents and business owners alike believe in its strong "shop local" attitude. Warwick recognizes that small business is an economic driver and one of the biggest reasons Warwick is a treasured destination for so many visitors. There is a distinctive pride in creating strong businesses from which earnings are invested in the community. Local business owners, and their families and employees, shop local at other businesses, buy homes here and support many of the local charities and organizations that serve the community,

all leading to continual economic growth. The principle of "shop local" also applies when you need to choose legal counsel. You should expect your lawyer to understand area customs and practices, know local attorneys and judges and have a comprehensive understanding of their community as a whole. That knowledge enables a lawyer to best serve his or her clients. Lawyers who are actively engaged in the local legal community also provide their clients the benefit of a broader knowledge base. Lawyers often reach out to area colleagues for their perspective or their experience or even simply a referral on a matter they do not handle. What has worked? More importantly, what has failed? In my role as

local prosecutor, my experience has taught me how to work with the judges in the greater Warwick area and how to best approach the issue in front of them to obtain the best outcome for my client. Likewise, when representing a private client, knowing opposing counsel aids me in developing a strategy to best meet the needs of my client. This is true for not just me, but for all attorneys. In sum, if you need an attorney, start your search here in the Warwick Valley.

How can business owners plan for an exit?

If you're a business owner, you've always got a lot to do and a lot to think about. But have you thought much about how you'll eventually leave it all behind?

Even if you're a few years away from that day, it's a good idea to start considering your exit strategy. How will you sell or transfer your business?

Essentially, you have three main options.

First, you could sell or transfer the business to someone already affiliated with the company, such as a family member, business partner or group of employees.

Second, you could sell to an unrelated third party.

And third, you could simply liquidate the business by selling all your assets and shutting down operations.

Each of these options may have advantages and disadvantages, depending on your situation. To decide which route to choose, you may want to consult with your financial, business and tax advisors.

But don't wait too long. Time goes fast — and when the time comes for you to say goodbye to your business, you'll want to be prepared.

Practical Computer Services began in 2017 as a way of helping local businesses and home-based users deal with the rapid and ever-changing technology and software associated with Windows.

I provide assistance with all kinds of computer issues. However recent calls relate to computer scams and viruses. It is very important that you do not open or click on links that you receive unless you are positive it is legitimate or familiar to you. It is very important to keep your software and anti-virus software applications current and active.

I look forward to provide continuing support for the local community.

At Lively Plant Systems we design, build, and sustain living plant walls (aka Greenwalls) and living roofs.

Living walls are an excellent way to level up any interior or exterior spaces. A proven biofiltration mechanism that allows your clients to connect with nature and improve their mindset. A perfect addition to commercial or residential buildings, restaurants, coffee shops, wellness centers and spas, conference rooms, waiting areas and lobbies.

We also build living roofs. Whether you are trying to create more habitat for birds and butterflies or cover up an unsightly roofline, green roofs are awe inspiring.
